## GOT A LEAKING DAM?

Seal it with ease using Water\$ave Plug

- ✓ No need to drain or rebuild
- ✓ Cost effective and easy to apply
- ✓ Can be applied to full or partially full dams

### Building a Dam

Failure to hold water is the most common problem for farm dams.

### Repairing a Dam

Structural repairs are expensive and not always successful. Sealant treatments normally require you to empty your dam.

### An Easy Solution

To create a permanent plug to seal the area where the water is being lost. Water\$ave Plug is a unique blend in powdered form when applied to a dam that is leaking will get sucked into those problem areas where your water is being lost. Water\$ave Plug will expand creating a permanent seal.

- ✓ Harvester Seals & Gaskets
- ✓ Tractor Engine & PTO Seals
- ✓ Hydrostatic Transmission Seals
- ✓ Leak Between Tractors Engine/Transmission
- ✓ Three Point Linkage Seals
- ✓ Generator & Farm Equipment Seals
- ✓ Power Steering Seals

**THIS IS WHY LIQUID INTELLIGENCE 230 CAN EVEN FIX BADLY LEAKING SEALS.**

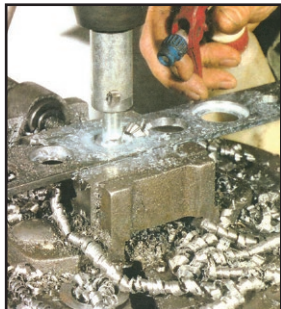

Even badly leaking seals, normally only have a slight amount of deterioration or damage on them and don't always need replacing...The Liquid Intelligence 230 Stop Leak Seal Expander formulation contains a unique combination of ester and phenol additives... These additive work by restoring some of the seals volume, elasticity and compression characteristics. Therefore returning substantial amounts of the seals original structural integrity, and preventing further leaks for years. Liquid Intelligence products are the BEST OF THE BEST. They have the highest degree of efficiency, activity and functionality, compared to any similar retail grade product.

You can call Peter for a chat about product and application information or simply to purchase Liquid Intelligence 7am to 7pm seven days a week
