GOT A LEAKING DAM?

Seal it with ease using Water\$ave Plug

- ✓ No need to drain or rebuild
- ✓ Cost effective and easy to apply
- ✓ Can be applied to full or partially full dams

Building a Dam

Failure to hold water is the most common problem for farm dams.

Repairing a Dam

Structural repairs are expensive and not always successful.
Sealant treatments normally require you to empty your dam.

An Easy Solution

To create a permanent plug to seal the area where the water is being lost. Water\$ave Plug is a unique blend in powdered form when applied to a dam that is leaking will get sucked into those problem areas where your water is being lost. Water\$ave Plug will expand creating a permanent seal.

LAND IS ONLY AS VALUABLE AS THE WATER AVAILABLE

As the news of an El Nino continues to grow, history has taught land owners the importance of predicting and to be prepared for an impending - and sometimes prolonged - drought.

In many instances decisions made by agricultural enterprises have been life savers and if it's help you need, then Sustainable Water Pty Ltd could be the solution.

Established in 2019, Sustainable Water Pty Ltd, a team with field experience using proven science has achieved a commendable success rate finding water all over Australia.

They combine water mapping, geographic information system analytics and onsite survey technologies including Passive Seismic to pinpoint drill sites with expected drilling depths. It's tapping into deep underground flows, even in regions where water has been notoriously difficult to locate.

Water search technologies, assembled from around the world, are at the heart of what they do. They have knowledge and an acute understanding of your land and the geological conditions most likely to support the presence of sustainable groundwater.

If water supply was a worrying factor during the most recent of Australia's seemingly endless droughts, it's time to check out the expertise offered.

Owner-operator Jim Conley states that their national mapping often found the driest or least productive areas hold the highest potential for deep water. "I'm not talking Great Artesian Basin, I'm talking sub-artesian water, identifying a potential water source is just the start. Once located, the water needs to be properly extracted," he continued. "Unless you have experience doing such a task and the adequate tools to pull it off, finding and extracting bore water can be a complex, costly and lengthy process," he said.

"Sustainable Water is driven by results. We utilise scientific methodologies to help our clients find significant fresh water

that is sustainable in nature to see them through the dry times or simply enhance their productivity.

"Land is only as valuable as the water available for production, for example, one of our clients had his land re-valued by his bank after finding permanent water and it has increased the value of his property by \$1 million. Due to the water we found, another client has been able to grow cotton to increase annual cotton production by \$1 million."

"Solve Your Bird Problems"

With my Hawk Bird Scarer OR your money back guaranteed.

This scarer will save you money because it only costs \$39 and it is guaranteed to work.

"You saved my Roses from Parrot and Cockatoo damage" Wendy Burgin, Riverside Drive, Warburton, Vic.

This full size replica, of a hovering hawk, is made of tough weatherproof plastic, so it lasts.

"I have solved my bird problem" said N. Bond, Braybrook, Vic.

You can protect your stone & pome fruits, nut, berry or broad acre crops on calm or windy days because you suspend your hawk over or near your crop. No power, wind or poison needed which protects the environment.

Your Hawk Bird Scarer looks real so it scares all birds including Cockatoos, Crows, Galahs, Corellas, Starlings, Blackbirds, Bulbuls, Jays, Mynahs, Silver Eyes & Parrots.

Other uses: Stops Pigeons, Swallows and Seagulls roosting on boats, sheds, verandahs and roofs. Scares ducks off dams & swimming pools. But does not give 100% results for Sparrows.

"Your new Hawk Bird Scarer replaces the old fashioned Scare-Crow"

Order now & you will receive a Free 28 Page Booklet on Bird Scaring Techniques. Hawks are just \$39 each from:

Save Thousands When Fixing Leaking Oil Seals & Gaskets

"MY PRODUCT IS THE ONLY ONE THAT IS 100% GUARANTEED TO WORK AND IS BACKED BY 7 DAY A WEEK TECHNICAL PHONE SUPPORT."

PETER MAHER
The person behind
the chemistry of
Liquid Intelligence
1800 441 163

SAFELY FIXES LEAKING OIL SEALS & GASKETS ON AGRICULTURAL MACHINERY CARS, TRUCKS, FARM EQUIPMENT, TRACTORS, HYDRAULICS & EXCAVATORS

- ✓ Front & Rear Main Seals
- ✓ Diff & Swivel Hub Seals
- ✓ Transmission / Transfer Box Seals
- ✓ Final Drive Seals On Earthmovers
- ✓ Hydraulic Cylinders / Pump Seals
- ✓ Harvester Seals & Gaskets
- ✓ Tractor Engine & PTO Seals
- ✓ Hydrostatic Transmission Seals
- ✓ Leak Between Tractors Engine/Transmission
- ✓ Three Point Linkage Seals
- ✓ Generator & Farm Equipment Seals
- ✓ Power Steering Seals

THIS IS WHY LIQUID INTELLIGENCE 230 CAN EVEN FIX BADLY LEAKING SEALS.

Even badly leaking seals, normally only have a slight amount of deterioration or damage on them and don't always need replacing...The Liquid Intelligence 230 Stop Leak Seal Expander formulation contains a unique combination of ester and phenol additives... These additive work by restoring some of the seals volume, elasticity and compression characteristics. Therefore returning substantial amounts of the seals original structural integrity, and preventing further leaks for years. Liquid Intelligence products are the BEST OF THE BEST. They have the highest degree of efficiency, activity and functionality, compared to any similar retail grade product.

You can call Peter for a chat about product and application information or simply to purchase Liquid Intelligence 7am to 7pm seven days a week
